## PRODUCT GUIDE

All prices listed are RRP. Please email or ring us for your discounts.

Protecting natural resources.

Preventing pollution.

Reducing waste.

“We strive towards continual improvement in our environmental performance and endeavour to minimise the scale of our adverse impact on the environment by setting, implementing, monitoring and reviewing environmentally conscious operational objectives and targets.”

Recognising the long term benefits to our business and our customers we are committed to taking an active part in protecting natural resources, preventing pollution and reducing waste.

#### QR Code Scanning

Adding QR Codes which allow users to access unbranded operating and assembly instructions has resulted in a reduction of printed sheets of paper, totalling approximately 50,000 less printed sheets per year!

#### Continual Improvement

We continually strive for environmental excellence, changing and creating processes to help us lower our carbon footprint. We are delighted to say that our BSI ISO:14001 accreditation has been successfully renewed.

#### Glue-less Technology

We have developed and enhanced our manufacturing techniques, enabling us to build our upholstered swivel chair backs with an E-badge, resulting in the product becoming totally glue-less.

## Component Breakdown

We only use the highest quality components when building our products. The chairs featured in this presentation are constructed from:

**44%**  
Steel

**19%**  
Polypropylene

**14%**  
Aluminium Castings

**13%**  
Plywood

**6%**  
PU Foam

**2%**  
Fabric

**2%**  
Nylon

The chairs featured in this presentation contain up to

**37%**  
Recycled Material

21% Steel  
14% Aluminium Castings  
2% Fabric

The chairs featured in this presentation are up to

**99%**  
Recyclable

# Component Recyclability

Our products are up to

# 99%

Recyclable

# Did you know...

-----

The fabric on your chair could be recycled to make mattress filling, lining insulation, toy stuffing or even another eco-friendly fabric that is made from recyclable material .

-----

The plastic on your chair could be shredded, melted, extruded then moulded into new chair parts.

-----

The foam on your chair could be chipped or crumbled and recycled for use in other hard-wearing applications such as underlay or sofa arms.

-----

The metals on your chair can be recycled to make all sorts of steel products like bike frames, cars and paper clips

-----

We only use the highest quality components when building our products, all of which contain up to 37% recycled material.

-----

We continually strive for environmental excellence, changing and creating processes to help us lower our carbon footprint, successfully renewing our BSI ISO:14001 accreditation for another year.

## PREVENTATIVE & CORRECTIVE SOLUTIONS.

Ergonomic seating is vital for well-being in the workplace. Well-being improves motivation, productivity and energy levels. Employers should consider actiV seating for their work force.

All the above information points towards the necessity for seating that offers adequate, variable and flexible support which can be adjusted sufficiently to suit the majority of the workforce.

The challenge to overcome the diversity of different body shapes and sizes resulted in the development of actiV - a highly engineered yet affordable ergonomic and posture solution.

# Intro

## Ergonomically Designed, Anatomically Correct.

The Intro range offers an affordable solution to posture seating for petite, regular and larger users.

A choice of backrests allow you to select the optimum fit for the size and shape of a specific user.

A multitude of optional extras can then be added, tailoring the chair to suit.

360° Swivel

Seat Height

Back Height

Back Angle

Seat Angle

Seat Depth

Lumbar Support

Arm Adjustment

### 1. Headrest

Optional Extra: /HR

Available on selected models, the addition of a height and angle adjustable headrest supports the user in reclined positions, relieving stress within the neck muscles.

### 3. Coccyx Zone

Optional Extra: /CC

A cut out / soft pocket located at the back of the cushion which provides a discrete solution to coccyx pain and provides pressure relief to the tail bone area caused by trauma or scarring.

### 5. Seat Slide

Standard Feature

Allows the user to increase the seat depth in order to optimise comfort and support and reduce the amount of pressure transferred to the legs.

### 7. Air-Flo Seat Cell

Optional Extra: /AIR

A dual chamber air cell below the seat surface offers a "reactive sit" whilst providing cushioning to the sit bones, helping to improve core strength and reduce sciatic pain.

### 9. Adjustable Arms

Optional Extra

- A: Height Adjustable Arms (AA1D)
- B: Height and Depth Adjustable Arms (AA2D)
- C: Height and Foldaway Adjustable Arms (AF)
- D: Multi-Functional Arms (AMF)

### 2. Inflatable Thoracic Support

Optional Extra: /ITC

Increases the contact area of the upper spine by filling the space between the shoulder blades, helping to prevent slouching and reduce pain/discomfort in the shoulder and neck area.

### 4. Performance Seat Foam

Optional Extra: /PF

Pressure sensitive to mould to the user's seated position, enhancing comfort and support throughout the working day. Also known as memory foam.

### 6. Inflatable Lumbar Support

Standard Feature

Increases the contact area of the lower back, giving additional support to the lumbar area and supporting the natural curvature of the spine whilst preventing fatigue and lower back pain.

### 8. Polished Base

Optional Extra: /AB

As well as increasing the aesthetic appeal of the range, a polished base is also recommended for seating users who are in excess of 115kg.

### 1. Headrest

Selected models

Standard on certain models, the addition of a height and angle adjustable headrest supports the user in reclined positions, relieving stress within the neck muscles.

### 3. Coccyx Zone

Optional Extra: /CC

A cut out / soft pocket located at the back of the cushion which provides a discrete solution to coccyx pain and provides pressure relief to the tail bone area caused by trauma or scarring.

### 5. Seat Slide

Standard Feature

Allows the user to increase the seat depth in order to optimise comfort and support and reduce the amount of pressure transferred to the legs.

### 7. Air-Flo Seat Cell

Optional Extra: /AIR

A dual chamber air cell below the seat surface offers a "reactive sit" whilst providing cushioning to the sit bones, helping to improve core strength and reduce sciatic pain.

### 9. Polished Base

Optional Extra: /AB

As well as increasing the aesthetic appeal of the range, a polished base is also recommended for seating users who are in excess of 115kg.

### 2. Inflatable Thoracic Support

Optional Extra: /ITC

Increases the contact area of the upper spine by filling the space between the shoulder blades, helping to prevent slouching and reduce pain/discomfort in the shoulder and neck area.

### 4. Performance Seat Foam

Optional Extra: /PF

Pressure sensitive to mould to the user's seated position, enhancing comfort and support throughout the working day. Also known as memory foam.

### 6. Inflatable Lumbar Support

Standard Feature

Increases the contact area of the lower back, giving additional support to the lumbar area and supporting the natural curvature of the spine whilst preventing fatigue and lower back pain.

### 8. Flex-Front Seat

Selected Models

Proven medical scanning has been used to show that using the forward tilt motion can lead to increased muscle activity in the stomach, hip and back areas. This enables segments of the lower spine to be set in motion, dynamically promoting good posture and healthy circulation.

### 10. Adjustable Arms

Standard Feature

Choose between models with Height and Depth Adjustable Arms or Multi-Functional Arms. Non-armed versions are also available.

## CHAIR SPECIFICATION

- Fully upholstered tri-curved posture backrest
- Independent back angle adjustment
- Body weight tension control
- Seat height adjustment
- Synchronised mechanism Tilt Lock
- Ratchet backrest height adjustment

# YOU ergo

The office chair range that was designed for you.

One range of seating, two levels.  
Working in parallel, working for YOU.

YOU was designed with comfort, support and durability in mind. Defined by mechanism, each range is available in both upholstered and mesh back options. At both levels the backrests are a key feature, with height, angle and lumbar adjustability integral to optimum support.

Coupled with a flex-front seat to enhance the reclining movement YOU will improve ergonomic comfort. A stylish, contemporary solution for the workplace employee, remote worker or those seeking a corrective posture solution.

Available on selected models, the addition of a height and angle adjustable headrest supports the user in reclined positions, relieving stress within the neck muscles.

### 3. Coccyx Zone

Optional Extra: /CC

A cut out / soft pocket located at the back of the cushion which provides a discrete solution to coccyx pain and provides pressure relief to the tail bone area caused by trauma or scarring.

### 5. Seat Slide

Standard Feature

Allows the user to increase the seat depth in order to optimise comfort and support and reduce the amount of pressure transferred to the legs.

### 7. Air-Flo Seat Cell

Optional Extra: /AIR

A dual chamber air cell below the seat surface offers a "reactive sit" whilst providing cushioning to the sit bones, helping to improve core strength and reduce sciatic pain.

### 9. Polished Base

Optional Extra: /AB

As well as increasing the aesthetic appeal of the range, a polished base is also recommended for seating users who are in excess of 115kg.

### 2. Inflatable Thoracic Support

Optional Extra: /ITC

Increases the contact area of the upper spine by filling the space between the shoulder blades, helping to prevent slouching and reduce pain/discomfort in the shoulder and neck area.

### 4. Performance Seat Foam

Optional Extra: /PF

Pressure sensitive to mould to the user's seated position, enhancing comfort and support throughout the working day. Also known as memory foam.

### 6. Inflatable Lumbar Support

Standard Feature

Increases the contact area of the lower back, giving additional support to the lumbar area and supporting the natural curvature of the spine whilst preventing fatigue and lower back pain.

### 8. Flex-Front Seat

Standard Feature

Proven medical scanning has been used to show that using the forward tilt motion can lead to increased muscle activity in the stomach, hip and back areas. This enables segments of the lower spine to be set in motion, dynamically promoting good posture and healthy circulation.

### 10. Adjustable Arms

Optional Extra

Choose between models with Height and Depth Adjustable Arms or Multi-Functional Arms. Non-armed versions are also available.

## PHYSIOTHERAPIST APPROVED

### Gilly Fairhurst

BSC (hons) Physiotherapy,

Designed with  
**sustainability** in mind.

The office is evolving into a more sustainable environment.

As individuals, we are now more aware of the impact we have on our planet. We want to be green, but don't want to compromise on the quality of products we consume.

Echo has been designed to fulfil these needs.

## **60% recycled content**

Using less than 40% virgin material, Echo is comprised of an impressive 60.4% recycled material. Positively impacting the environment, without negatively impacting quality.

## **100% recyclable**

All of Echo's components can be broken down and recycled responsibly. Echo's life-cycle is further enhanced by a 10 year guarantee.

# YOU Task

The office chair range that was designed for you.

One range of seating, two levels.  
Working in parallel, working for YOU.

YOU was designed with comfort, support and durability in mind. Defined by mechanism, each range is available in both upholstered and mesh back options. At both levels the backrests are a key feature, with height, angle and lumbar adjustability integral to optimum support.

Coupled with a flex-front seat to enhance the reclining movement YOU will improve ergonomic comfort. A stylish, contemporary solution for the workplace employee, remote worker or those seeking a corrective posture solution.

# Axent

Sleek.  
Stylish.  
Reactive.

To complete our deluxe task range, Axent was designed to compete in the high volume mesh market.

Axent comes as standard with seat depth adjustment, allowing specification to a wider audience than a standard task chair.

Enhanced aesthetics are achieved with a sleek curved backrest, which integrates seamlessly into the seat and mechanism of the chair.

# Haze

Clean lines, simple  
aesthetics,  
multi-purpose.

Haze fits comfortably into most  
environments, as a homeworker, office,  
task, conference or meeting chair.

Specifically designed with simple  
adjustments, a cable system ensures  
a smooth lockable tilting action with  
easily accessed front of seat controls.

A breathable and elastic mesh wraps  
the frame for user comfort and  
support.

## Coffee Tables

Finish your project in style with a complimentary coffee table, supplied with the same base type as the lounge seating you have selected.  
See page 140 for coffee tables.

# Review

Retro, stylish,  
individual.

A new take on a simple design,  
swapping the rounded shapes for a  
more angular profile with the same  
base and frame options.

Contrasting with luxurious fabric  
selections, a truly inspirational choice  
for the executive feel.

# Reflect

## A style and comfort statement.

Imposing, high level design inspiration, enforcing the concept that good style does not mean high cost.

With emphasis on comfort, cleverly profiled curves are matched with a gently flexing back for that ultimate feel.

# Luca

## Stylish & Versatile

Luca is a distinctive modular sofa and booth system, designed to suite together and compliment any corporate, education or hospitality setting.

A family of 1, 2 and 3 seat sofa units alongside 2, 4 or 6 person booths all available in either low or high back variations. With it possible to specify internal arms, loose cushions and a multitude of power and data units, Luca is fully customisable to the individual environment each time.

Showcasing a simple and clean aesthetic with an equally high focus on seated comfort by incorporating deep cushioned seat pads with a supportive backrest, Luca is the ideal choice for your breakout solutions.

The simple design of Luca lends itself perfectly for either single, two or three tone upholstery to further compliment the aesthetic of the environment.

The modularity of Luca allows for easy delivery and installation onsite by our experienced team, we can also provide simple and easy to follow installation training for your own installation teams.

# bTogether

Be Comfortable.

Be Social.

Be Together.

We've developed a competitively priced modular booth system that is strong, durable and aesthetically pleasing.

Listening closely to the need of our clients, our in-house Design Team have refined our very popular bTogether concept to now include, bTogether Low and bTogether High.

These have been added to the range to make this product the ideal solution for every client in any environment.

## Quality Guaranteed

Hand made, assembled and upholstered in-house. Solid wooden frame constructed from locally sourced materials. Available in high quality fabric, leather and vinyl.

Expertly finished with superior stitching detail. Enhancements available including electrical inputs, tables and TV brackets.

Comprehensive modular design allows for easy expansion. Easy to configure and simple to install.

## Two Tone Upholstery

All the products featured in this range can be two tone upholstered.  
Please note that if you choose fabrics from two different pricing groups, the two tone booth will be priced using the higher pricing group as standard.

# Quick Reference Fabric Guide

Your options are endless when it comes to choosing a material to upholster your seating in.

We've tried to make things a little easier for you by compiling a list of the most popular selections in our fabric guide, letting you know which standards they conform to and whether the fabric your planning to use is suitable for the type of product you require.

## Specification

We have taken great care to ensure that all details, descriptions, measurements and prices in this Product Guide are correct.

In order to give you the most accurate representation of our products, we have used colour swatches that have been provided directly from our fabric suppliers. Although every care has been taken to ensure that dimensions are accurate, manufacturing characteristics may vary slightly.

MDK Office Seating reserve the right to make any reasonable changes to specification or design as part of our continual improvement policy.

## Dimensions Guide

SH	Seat Height	Distance from floor to top of seat foam
SW	Seat Width	Width of seat at its widest point
SD	Seat Depth	Distance from front of seat to backrest
BH	Back Height	Distance from top of seat foam to highest point of backrest
BW	Back Width	Width of backrest at its widest point
OH	Overall Height	Overall height of product
OW	Overall Width	Overall width of product
OD	Overall Depth	Overall depth of product
HR	Headrest	Height and width of headrest

## Guarantee

For 8 hour per day use all models carry a full 5 year structural guarantee with 2 years on moving parts and upholstery.

For 24 hour per day use a 2 year structural guarantee applies.

These guarantees exclude unfair wear and tear and damage or failure caused by misuse.

All gas lifts are suitable for users up to 150 kg.
